

Systems Integration

Overview

At Gulf Coast Seal, we offer our customers secure, Internet-based, business-to-business transactions using industry-leading standards like electronic data interchange (EDI), XML, and SOAP to ensure compatibility with any customer regardless of their choice of application, platform, or transport. Our systems integration offering includes direct purchase order processing, immediate purchase order acknowledgements and integrated invoicing.

Customer Benefits

- Improved Customer Service
- Improved Purchasing Efficiency
- Reduced Transaction Costs
- Elimination of "Phone-Tag"

Features

- Secure Internet based business transactions including purchase orders, acknowledgements and invoices.
- Reliable messaging and failover capability.
- Flexible transaction processing including EDI, XML, flat-file and SAP® IDoc.
- Multiple transport protocols including HTTP, HTTPS, FTP and SMTP.

Next Steps

For more information regarding our Systems Integration offering, please contact your local Gulf Coast Seal salesman, our Houston, TX or Glasgow, Scotland operation centers or email us at integration@gulfcoastseal.com.
